TO : WHOM IT MAY CONCERN
DATE : 18.04.2008
REFERENCE : **LP.POS.0037 WASTE RECYCLING LINE**

We have available this unit for waste recycling fibre.

The production of this line was of 500 Kg./ h and the out put was between 200 and 300 Kg/ h. The difference in the production was depending from the waste used in the process. **Dirty waste less production, good waste more production**

The Machines are all dismantled and 100% re-built by our Company. As you know during the process of the waste all the machines are under pressure and it is important to have them 100% when some one re-starts there production. For this reason we have dismantled, cleaned, change the bearing, lattice, motor belts, change the bearing of the motors, re-painted, re-assembled and now they are like new.

The machinery list is the following :

- 01 B10/1 Marzoli** Blender feeder with working width 1.000 mm, feeding lattice of 600 cm.- porcupine beater - year 1999.
- 01 B10/1 Marzoli** Blender feeder with working width 1.000 mm, feeding lattice of 600 cm.- porcupine beater - year 1999
- 01 B22 Marzoli** Blending lattice for 02 B10/1 Marzoli
- 01 B160 Marzoli** Electronic metal detector device for metal parts
- 01 B44 Marzoli** Cage condenser for six step cleaner - working width 1000 mm. Year 2002
- 01 B51/1 Marzoli** Six step cleaner, with porcupine beater to feed the cascade of 6 Beaters working width 1.000 mm.- year 1999
- 01 B44 Marzoli** Cage condenser for Six step cleaner - working width 1000 mm. Year 2002

- 01 **B34** **Marzoli** Horizontal opener with Kirsher beater - working width 1200mm.
Main Motor Drived by frequency Inverter - year 1999
- 01 **B44** **Marzoli** Cage condenser for Six step cleaner - working width 1000 mm.
Year 2002
- 01 **B34** **Marzoli** Horizontal opener with Kirsher beater - working width 1200mm.
Main Motor Drived by frequency Inverter - year 1999
- 01 **B44** **Marzoli** Cage condenser for Six step cleaner - working width 1000mm.
Year 2002
- 01 **BX40** **Gualchierani** Bale press for 40 ton pressure - automatic feeding –
Manual knotting of the bales - bales demension 110 x 70 x adjustable
(bales de 150 to 400 kg.)
- 01 **B95** **Marzoli** control panel for Ila the line included the signal to the bale
press - year 2008
- 01 **LTG - Kenya** control panel for the filtration unit - Year 1999
- 01 **LTG- Kenya** Pre-filter of 40.000 m³/hour - with exit for FKKA faser
compactor
- 01 **LTG- Kenya** Rotary filter for 40.000 M³/h -
- 01 **LTG - Kenya** Extraction fan of 50.000 M³/h (15% more powerful for
the difference of waste to be processed)
- 01 **LTG- Kenya** Extraction fan for faser compactor
- 01 **LTG- Kenya** FKKA faser compactor with max production of 300 Kg/h
- 04 **Marzoli** By- pass for the clean material
